

FE6 Forcible-Entry Flat-Head Fire Axe

**6# Drop Forged from 4140 High Carbon American Steel
Matches TD30 Council Halligan
Available handles: 32" or 36" Hickory or 34" Fiberglass/Composite**

- Marrying slot built into the blade.
- Tapered wedge shape axe blade to capture progress while forcing a door.
- Continuous spine - slot does not become a sticking point.
- Hefty poll on the back of the axe head, large striking surface.
- Extended poll to balance the head, center of gravity within the eye/handle area.

FE6 Forcible-Entry Flat-Head Fire Axe

All FE6 models marry with most popular Halligan tools. Shown here with Council Fire TD30-Tuned and dressed 30" Halligan #HAL1P30
